MEMORANDUM FOR: Deputy Director/Intelligence  
SUBJECT : Collection Guidance Staff

Ray:

Attached is a draft of a memorandum which proposes a compromise solution on CGS. For your ears only, I feel much more strongly about the CGS shopping list than I indicated here. For your information, attached is my check list on the items that J. J. proposed. You will see how few of them were acceptable--even to me--and had I been an operating unit, I am not sure but that I would have taken the same attitude as DD/S&T did take. I think the shopping list was most ill-advised, ill-considered and ill-timed.

However, I am still a firm believer in the centralization of requirements and in CGS. I think we can recoup and start again on a more modest basis and win friends and influence by doing a good job. I would appreciate it if you would go over this at your early convenience and then talk to me about it, and perhaps then we can have a summit meeting.

Lyman B. Kirkpatrick  
Executive Director

CCS Services for DD/S&T

I. Collection Guidance

A. General

1. Maintenance of a single, unique center, knowledgeable of all collection capabilities available to Agency components and to other parts of the community.
2. Placement with best-suited collectors of the needs of DD/S&T-chaired committees and groups; GMAIC, JAFIC, SIC, FMSAC.
3. Assistance in matching of substantive needs with operational research and development.
4. Providing knowledgeable mechanism for the dissection of complex requirements problems and the assignment of their parts to appropriate collectors.
5. Provision of means for integration of DD/S&T substantive interests into intelligence planning processes, such as the development of ENIO's, their revisions and supplements, the EPC List, etc.
6. Systematic evaluation of collection performance and responsiveness.
7. Central facility for bringing together collectors, analysts and others in specialized working groups on collection problems.
8. Monitoring the status of all DD/S&T requirements through Requirements Registry and stimulating action thereon.
